ONEONTA WINS

Wanderers Defeat Little Falls 23 to 18 — Game Played Half Professional and Half Collegiate Rules — Play was Rough Throughout.

The Oneonta Wanderers, the Community Athletic Association basketball team, entered the Mohawk Valley on Thanksgiving day, for the first time since their organization three years ago and defeated the fast Little Falls team by a score of 23 to 18. The game was a rough one throughout, played half professional and half amateur rules, and was considered by the Little Falls fans as being the fastest game seen on their courts in many years.

Perry started the scoring, making a point on a foul, which was followed by a field goal by him on a tip off from center, then another point on a foul shot, which was followed up by a field basket by Stubb Parks. Up to this phase of the game the boys from the Mohawks failed to make a single point, but did so on a foul by the referee. The game began to tighten, the Little Falls quintet making four field baskets to the Wanderers four, and being blessed with the opportunity of having a chance for ten free throws from the foul line, the end of the first half gave them a lead of one point over their visitors.

In the second half both teams kept up their stride on point getting, and up until about five minutes from the end, it looked like anybody's game. At this point Captain Parks of the Wanderers took time out, and had a conference with his players, Little Falls at this time being two points in the lead. With renewal of the play, a foul was called on the Valley team, and Parks scored on it, thus reducing their lead to one, but the results of the conference held just before this, proved the Oneontans had found the correct dope and had the drop on their opponents, scoring three field baskets and a foul, a total of seven points, vanquishing their foes, and keeping them from scoring.

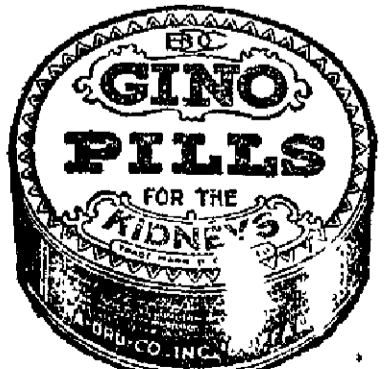

Parks started for Oneonta at the forward game, securing a total of 11 points, while Disbrow proved formidable as a guard, keeping his forward basketless, Youdon, center was the Little Falls honor man, making a total of seven points. Gorbinski, played their best guard game, allowing Perry but one basket.

TWO BIG GAMES

On Saturday, Dec. 3, when Colgate plays Wanderers and Delhi Emeralds play Co. "G"—Dancing After Game.

Two big games of basket ball are scheduled at the armory for Saturday evening, Dec. 3, at which time the Oneonta Wanderers and Colgate clash, and Co. "G" and the Delhi Emeralds battle for the honors. Dancing will follow after the games.

The first game of the evening will be between Co. "G" and the Delhi Emeralds at 7:15. These two teams are very evenly matched and a snappy pep game is assured. The company team is going strong and Delhi will have to exhibit a very aggressive brand of basket ball if they go home with the bacon.

Colgate Collegians and the Wanderers will clash at 8:15 and this promises to be the biggest game ever held on an Oneonta court. The Wanderers know they have an adversary of great strength to contend with, but are confident they can fight their way through to a victory. They are practicing hard for the game, and will be in wonderful form.

Dancing, which proved so popular to those attending the game at the armory Tuesday evening, will be provided again for this game, and will be conducted in the same pleasing and high class order as was the last dance. The admission price of 50¢ which has been charged for games heretofore, which includes dancing, will prevail again at this game. Those under 16 years will be charged the nominal sum of 25¢.

MARKET BASED ON EASY MONEY RATES

Stocks Listless at Opening, Steady at Midday, and Develop General Strength Before Close

New York, Nov. 25.—Stocks were listless at the opening of today's session, becoming steady at midday and developing general strength before the close. The market seemed to have its basis mainly on easier money rates, call loans declining from 5 to 4½ per cent. on liberal offerings.

Bonds again displayed consistent strength on large and diversified dealings in which five of the Liberty series established new high records for the year. An exception to the higher trend in the bond list was furnished by French municipals, which reacted sharply.

Pools resumed their bullish tactics in specialties of the chemical, utility, metal, leather and miscellaneous divisions without evoking perceptible public response, but rails moved to higher ground as a result of steady and substantial accumulation.

In the afternoon, a sudden drive against the shorts in Mexican Petroleum was accompanied by advances in domestic issues, the Standard Oil group again coming forward.

Liberty issues and high-grade rails, such as Northern Pacific, Great Northern, Burlington 4½s, and numerous minor bonds, participated in the broad inquiry from investment sources. Traction issues were strong with several of the international groups of war issues.

FIVE SPOTS SOUNDLY BEATEN

Unadilla High School Trims Up Visitors 41 to 6—Game a Rough One.

Five Spots came very near losing their spots at Unadilla last Wednesday evening when the Unadilla High school team trimmed up to the tune of 41 to 6. They were held scoreless through the game and only saved themselves from being whitewashed in the last five minutes' play. The game was too one-sided to be interesting, in spite of the fact that the Oneonta quintet were much heavier and should have made a better showing. Unadilla jumped into the lead early in the game, and that lead was never imperiled.

McMillan and Edwards starred for Unadilla, while Butts and Patton accounted for the Five Spots' only points.

Rather Large Order.

In a certain kindergarten the children were telephoning imaginary orders to an imaginary grocery store for the sake of the training in English to be derived therefrom. A little girl volunteered the following order: "Hello! Is this the grocery? Please send me some bread. Please send me some chops. And a little gravy, please!"

Economical Grandma.

Little Jack, four, was looking at his grandmother reading. After reading for about a half an hour she put her glasses down on her nose, her eyes being tired. Jack noticed this and turning around said: "Oh, mother, look at grandma looking over her glasses so she won't wear them out."

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have
Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-mood feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

BUCK JONES IN A NEW PICTURE

Buck Jones, the popular motion picture star who faces danger, late and at times the very laws of gravitation, comes to this theatre today in the picture "Get Your Man." A cleverly constructed vehicle for the intrepid Jones.

In "Get Your Man" Buck's experiences extend from hair-raising incidents in the depths of a coal mine in Scotland to adventure in the Canadian Northwest, where the Royal Mounted Police have won an enviable place in the world's Hall of Fame.

The lawlessness of the early days in that section of the country, the experiences and indomitable courage of the Mounted Police, and the unusual development of an odd love affair constitute excellent material for a most alluring drama.

Jones not only depicts the hardy, quiet and determined Scotchman, but when he joins the Mounted Police his masterful ability as horseman and marksman is brought into play, and he fairly revels in the game of running down crime.

CHRISTMAS IS COMING.

In four weeks more—four weeks
and a day to be exact by the almanac—
Christmas will be with us. In the
interval between there will be plenty
of time to discuss the religious, aesthet-
ic, charitable and sentimental aspects
of the day, and doubtless the press
as a whole will take advantage of the
opportunity. However, there is a con-
dition precedent which no doubt every-
body will with more or less serious-
ness of mind consider.

Along with the charitable and senti-
mental features of the day which in
every Christian land in the world is
observed, there runs the general cus-
tom of gift-giving and doubtless this
may have been largely engendered in
thought as to what they shall give.
A considerable number of "remem-
brances" are, of course always hand-
made, the gifts of relatives and
friends, and with love wrought into
every thread, and stitch and seam of
them. Doubtless many such efforts
are already completed and laid safely
away, waiting for nearer approach of
Christmas to be wrapped, addressed,
stamped and safely dispatched. There
can never be too many of these; and
in one way they are the best of all,
since they carry with them a sense
of personal effort and remembrance.

But since a majority of gifts of
necessity are not of this sort, it fol-
lows that the stores of town and city
must be resorted to; and in this con-
nection it is proper to advert to the
fact that not only is Christmas but
four weeks off, but that most of the
buying must be done within the next
three weeks. For week after week
there will probably be little of
holiday shopping. With early de-
cember it will doubtless begin to in-
crease, and in two weeks from this
time the shops will be crowded with
those seeking not exactly for bar-
gains, but for gifts suited to the festal
day.

The selection of Christmas gifts, it
may be plausibly said, takes time if it
is to be done with judgment. Also ju-
dicious selection cannot so well be
made when stores are crowded and
clerks are busy. It would be wise,
therefore, not to wait too long for the
Christmas shopping, which in fact every-
body has for years been enjoined
to do early. Get it soon, making out
a careful preliminary list in order
that nobody and nothing be omitted,
and by so doing not only make the
buying easier and more satisfactory
for yourself but also win the gratitude
of the salespeople, who a little later
will be sadly overworked.

These are hints about giving to in-
dividuals. In a short time there will
doubtless be the familiar kettles on
tripods at street corners, and the no-
less familiar appeal for funds for Sal-
vation Army dinners. It is an ap-
pel which should not be overlooked.
There is no organization which has
clearer understanding of human needs,
or more willingness to minister than
the Salvation Army. When, there-
fore, the kettles are swung, there
should be an abundant shower of coin
and bills, since there is no question
that whatever is received will be ex-
pended, every dollar of it, for a worth-
y purpose.

PLANNING DRIVE FOR MEMBERS.

Conference of Two-Town District
Managers at Cooperstown.

H. M. Bowen of Cooperstown, who
has been chosen to direct the cam-
paign for members of the amal-
gamated Otsego County Farm Bureau
and Improvement association, provided
the plan is approved at the annual
meeting to be held in Oneonta Dec-
18th, is holding a two-day conference
with 12 men who have been chosen
from about the county as district
managers, the conference being held
at Cooperstown Friday and Saturday.

Each of the district managers is to
have direct management of the drive
for members in two towns of the
county and they will select a man in
each school district of the county to
make the native canvass for members.
In attendance at the conference is Mr.
Covey of Oneonta who is giving the
district managers a course of instruc-
tion in the active work of the cam-
paign. It is hoped to bring the mem-
bership in the county despite the pro-
posed increase in membership fee to
the largest number yet obtained and
to bring the county again to the head
of the list in the state.

CRUELTY BEATS HORSES

Charles Trowbridge Fined for Beat-
ing Horses with Log Chain and Club.

A horse is only an intractable beast
of burden to some people and they
treat the faithful animal accordingly.
A case in point is that of Charles
Trowbridge of 28 Cherry street,
arrested yesterday on the complaint of
the Society for Prevention of Cruelty
to Animals and charged with cruelly
beating a pair of horses with a log
chain and heavy club, the alleged
provocation being that the horses
talked.

Trowbridge pleaded guilty when
arraigned before Judge Huntington
and was fined \$10, a punishment by
no means excessive when the nature
of the offense is considered.

Short Sighted Food Interests.
The United States labor depart-
ment at Washington tells us that the
short sightedness of the storage
house people has resulted in an ad-
vance in the price of turkeys, other
poultry and eggs as the holiday season
approaches.

They have crowded these products
into storage in a way that has forced
the prices and as a result they will
find the public going without what it
cannot afford to buy and substituting
something else for Thanksgiving and
Christmas dinners. — [Lockport Sun
and Journal.

WHAT THE NEWSPAPERS SAY

A Practical Suggestion.

Herbert Hoover had addressed the
governors of the states urging them
to let as many contracts as possible
for highway construction. His pur-
pose is not to suggest that states en-
ter upon road building in winter wea-
ther, but he points out that if con-
tracts are given they will provide a
basis upon which contractors can or-
der tools, machinery and supplies.
Winter work will result from these
orders, and to that extent unemploy-
ment will be reduced. Mr. Hoover
might have gone further and suggested
that actual road building should be
stimulated to the utmost in the south.
This country has a sufficient width in
latitude to make out-door work pos-
sible in some part of it all the year
around, and there never was a time
when this advantage was used to its
fullest extent (the kind of work, of
course, is not the same north and south).
It is true, snows north every year with
the heaviest, but there is not the regu-
lar swing of outdoor labor that there
ought to be, and must be, if the south
ever develops its full capacity for giv-
ing employment. — [Detroit Free Press.

Accelerating Justice.
Assurances of swift judgment is in-
valuable in criminal cases as an ex-
ample to offenders, and in civil suits
involving particularly the interpreta-
tion of statutes, speedier decision
would avoid much unnecessary dis-
puting and expensive doubt and de-
lay. — [Dunkirk Observer.

Britain Growing.

Many persons may be surprised to
learn that about one-half of the 12,
000,000 square miles now included in
the British empire was acquired dur-
ing the last century and since the or-
ganization of the government of the
United States. In other words, Great
Britain during the last hundred years
or so has added to her possessions by
conquest, cession and purchase a por-
tion of nearly twice the area of the
continental United States. — [Buffalo
Courier.

When to Scrap Battleships.

A battleship is absolutely worthless
except to fight other battleships. It
cannot even be converted into any-
thing useful, but can only be scrapped
when obsolete.

For a generation we have been
building and scrapping battleships.
The Hughes program, aside from its
bearing upon the general issue of peace
and war, is irrefragable in its appeal to
the practical mind.

It is so much cheaper to scrap bat-
tleships before they are built. — [Coch-
ester Times-Union.

Street Crossing Rights.

Observance of the law of the cross-
ing is the key to the safety of the
streets in general from the automo-
bile peril. With enforced caution at
the crossing there will follow natu-
rally continued caution through the en-
tire city mileage. When the crossing
is made safe, the temptation to do
less than "waiting" in the middle of
block will pass out naturally. — [Coch-
ester Democrat and Chronicle.

The "Humanizing" of Our Factories.

Sorensen Shoe company of Lynn,
Mass. has some months ago "human-
ized" its plant, which employs 14,000
persons, by giving over factory man-
agement to a committee of workers
called "governors" and by turning
over to the workers a farm of 1,000
acres. The result of the company's
policy is "greatly increased efficiency"
and a gain of seven per cent in pro-
duction. "The only answer to indus-
trial friction is the humanization of
industries," says President Little. —

America's Best Service.

An arms conference of this nature
a year ago would have been a failure.
This year it may become a success.
It can be so only if America remem-
bers that idealism is her very life-
blood, that holding visions beyond
those of other nations is her normal
state. Only by being normal and
honest, can she help the world. —
[Concord, N. H., Monitor.

Life's Clean Side.

The leading daily paper in one of
the large cities has been conducting
a series of interviews with prominent
women concerning their home lives
and the circumstances surrounding
their marriages. Every woman inter-
viewed thus far is happily married,
and has been for years and is mis-
tress of the best type of American
home. These are women who would
not ordinarily give any publicity to
their personal affairs. They do it
now for the sake of lesson and ex-
ample. Each simple love chronicle
is a lesson in wholesome, heart-
warming and far removed from the
lurid. Such stories offer a pleasing
contrast to the modern type of sensu-
ous fiction which young people de-
vor daily in books or see depicted on
the screen. They help to prove that
public life and service do not inter-
fere with competent home manage-
ment or happy home life. They show
that domestic life is not a hindrance
to the development of the broadening
of interest which helps to keep life
true. — [Brookton Times.

Pursuers of Happiness.

Fylan is elected in New York be-
cause he advocates a decent car-
fare. One wins in Youngstown be-
cause he promises to permit spooning
in public. A man is entitled to pur-
sue it, if not always as a pro-
found student of government. —

Winter Course at State School.

For the sixth consecutive year the
New York state school of agriculture
at Colleskill offers a short winter
course for eight weeks. The course
begins Tuesday, January 3, and closes
Friday, February 21. It has proved
very popular with young men who
live on farms who cannot be away
from home for a more extensive
course. It comes at a time of year
when farm work is least pressing,
which accounts in part for the fact
that young men from a considerable
number of counties in this part of
the state enrolled in this course last
year. No tuition is charged. Room
and board will cost about \$7 per
week.

FEW OF FOREIGN BIRTH

But 851 or 7.1 Per Cent of the City's
Population Were Born Under Alien
Flags.

It is doubtful whether many people
could state offhand, or even after
consultation, the number of foreign
born white residents of Oneonta.
Probably most persons would make
their estimate lower than 854, the
exact number at the time of the 1920
census. This information, to-
gether with a list of the countries of
birth, is contained in a letter to Sec-
retary Hicks of the Chamber of Com-
merce from W. M. Stewart, director of
the Bureau of the Census of the De-
partment of Commerce. The infor-
mation was requested some time ago by
Secretary Hicks.

The population of Oneonta is given
by the 1920 census as 11,587, which
was made the 854 foreign born resi-
dents constituting 7.4 per cent of the
total. It is understood that few con-
fidentals in New York state have as
low a percentage of foreign born.
In the list of the countries of
birth, heads in the list of countries of
birth with 249 natives. There are
1 from merry England, 95 Russians,
50 Irish from the "old sod", 58
Germans, and 50 Serbians. The com-
plete list follows:

But six countries included in the
census bureau's classification are not
represented by native sons or daugh-
ters. They are Armenia, Cuba, Fin-
land, Lithuania, Spain and the West
Indies.

ing to Principal H. J. Van Deusen. The

will select a committee to choose the
two essays from this district which

OUR FARM OWNED TRUCKS

Number Nearly 2,000 Greater Than
That of Tractors in Operation in
Empire State—Other Statistics.

Albany, Nov. 25. — New York state
farmers are using nearly 2,000 more
farm trucks than they are tractors,
according to figures which the farm
management workers at the state col-
lege of agriculture here have just
compiled from the statistics obtained
by the last federal census. In fact,
Pennsylvania is the only state which
has more farm-owned trucks than
New York. The number in Pennsylv-
ania when the census was taken was
9,372 and in New York 9,239. One
New York farm in every 22 has a
farm-owned truck. The states coming
after New York in farm trucks are
Iowa, Ohio, Nebraska, California, and
Illinois, in the order named.

There were 7,437 tractors on New
York farms in 1920, compared with
2,382 reported in 1913. This is about
one tractor for every 23 farms. These
figures are all from the federal bur-
eau of the census, which has recent-
ly issued a report showing for each
state the number of farms having au-
tomobiles, tractors, motor trucks, tel-
ephones, and various other conven-
iences.

Illinois Has the Tractors.

The largest number of farm trac-
tors reported was by Illinois, with
23,102. Iowa, Kansas, and Minne-
sota ranked next in total number in the
order given.

Automobiles were owned on 37 per
cent of the farms in New York state.
Automobiles were reported for more
than half of the farms in Nebraska,
Iowa, South Dakota, Kansas, Minne-
sota, North Dakota, California, and
Illinois.

Nearly one-half of all New York
farms have telephones. Not quite
one-quarter have water piped into
the house and about one out of eight
farm houses has gas or electric light.
In California, water is piped into
more than one-half of the farm house-
es. Pennsylvania ranked next in the
improvement, with New York third.

LOCAL MENTION

—A. H. Ingerham will open his shop
in the Y. M. C. A. building this morn-
ing.

—About sixty couples were present
at the Thanksgiving dance of the One-
onta club last evening. The affair proving
one of the most enjoyable of the
present social season. The music
furnished by the Klipschke Synchro-
nation Five was excellent and the crowd
of a frame of mind heartily to enjoy
it. Delicious refreshments were served
under the supervision of Mrs. Lotie
Castelline.

—The service at the Chapin church
Sunday morning will be held at 10 a.
m. instead of at the usual time, to per-
mit delegates in attendance at the
convention of the Young People's
Christian Union to leave on the 11:40
a. m. trolley for their homes. To the
sessions of the convention at 9 a. m. and
1:30 p. m. today at the church and
the social gathering at the Woman's
club this evening, as well as the
Sunday morning service, the public is
cordially invited.

REGISTRATION OF TRACTORS

Use of the Tractor as Such Not With-
in the Motor Vehicle Law but Must
be Registered When Used with
Trailers.

Chief of Police Horton has received
a letter from the Motor Vehicle Bu-
reau of the State Tax commission mak-
ing clear the status under the Motor
Vehicle law of tractors and tractor
engines. Doubt has arisen in the
minds of many in regard to whether
such machines must be registered as
are pleasure and commercial motor
vehicles and several requests have
been made of the Police department
for information in regard to the mat-
ter.

The letter states that a tractor alone
is not classed as a commercial vehicle
and need not be registered. A tractor
which is used to haul a loaded wagon
or trailer of any description, however,
is regarded by the bureau as a com-
mercial vehicle and must be regis-
tered. The tractor must also be regis-
tered as such. Probably there would
be no objection to the use of a tractor
with the trailer within the farm
limits without registration, but farm-
ers who intend to use their tractors
for hauling purposes would be on the
safe side by applying for registration.

Vaudeville Novelty Counting

In addition to their usual feature
photo play program which will be
changed daily, commencing next Mon-
day night and for three nights, the
Oneonta theatre program will include
something entirely different from any-
thing Oneonta has known in the no-
velty amusement line. It is called
"Sawing a Lady in Half" and it is true
to the title. Reports from other cities
claim it is the sensation of vaudeville,
for a woman is actually sawed in two
right before your eyes, and to prove
that it is really done anyone is invited
to bring their own saw and try it
themselves. A committee is invited
upon the stage to hold the woman and
see that she is really fast and cannot
escape, then a large cross-cut saw is
brought upon the stage and the thrills
commence.

RELIGION HAS NOT FAILED

THE FAILURE IS OF RELIGIOUS
PEOPLE TO LIVE THEIR
RELIGION

So Rev. W. W. Rose of Rochester told
the Young People's Christian Union
of the state at the opening session
of its annual convention at Chapin
church last evening.

Religion has not failed. The chief
reason that civilization is tottering
and that society is menaced by evils
that threaten the destruction of all
that is best in government and society
is because professedly religious people
have failed to live their religion, have
failed to let it dominate their social,
economic and political life. Rev. W.
W. Rose of Rochester told the audi-
ence present last evening at the open-
ing service of the annual convention
of the Young People's Christian
union of the Universalist church of
New York state at the Chapin Mem-
orial church. Continuing in the same
vein he declared it to be his conviction
and that of others that the true
solution of the world's troubles is not
so much disarmament or world peace,
much as they are sought, but
rather the importance of letting reli-
gion dominate their lives as the pro-
fessed followers of the Christ.

Rev. Mr. Rose gave the principal
address of the evening and it received
close and marked attention. His
theme was "The Importance of Liv-
ing Your Religion," founding his ad-
dress upon the words of the Master.
"Ye are my friends if ye do whatso-
ever I command you. This thing I
command you, that ye love another."
Belief and creeds are not essential
said but it is all important that reli-
gion be lived. It was the religion of
the founders of the republic that
wrote the Declaration of Independ-
ence and the Constitution and of others
that since has written the 14th, the
15th and the 19th amendments.

It is important, first, in order that
we may find out whether we have any
religion. We are told that it is a
blend of faith, of hope and of love.
Have we these? If we have they will
lead us into paths of service. It is im-
portant also that we live our religion
that other people may find for them-
selves. Let your light so shine that
others seeing your good works may be
led to glorify your Father in Heaven.
Lastly, it is important as well that it
may shape the world. The latter
needs many good and worthy men
and religion in the life creates such.
There is nothing in atheistic
morality or ethical culture, but there
is power to remedy the world's ills in
your answer to the question, "But
how do you say that I am?" as crys-
tallized in the life you live.

The excellent address followed two
ten-minute responses to the question,
"Why I Choose the Ministry?" given
by two students of the Canton Theo-
logical seminary, Andy M. Nichol and
E. Elmer Peters. The former declar-
ed that the ministry was a privilege
and the opportunity it affords for
doing good. Mr. Peters, a senior,
said the decision was reached after
pondering three questions: Does the
work appeal to me? Is it financial-
ly worth while? Does it afford op-
portunity to serve humanity? These
things being settled in the affirmative,
the speaker had no hesitancy.

The evening devotions were con-
ducted by Rev. Charles Kramer of
Coopers town and the musical part of
the program was provided by the
Chapin church choir. A duet by Carl
L. Hotelling and Mrs. C. T. Wilcox be-
ing a feature.

Reversing, and quite happily, the
convention opened with a banquet,
which served to create a cordial good-
fellowship and interest. Following a
most appetizing dinner served at 6:15
o'clock by the ladies of Chapin church,
which all delegates and the resident
members keenly enjoyed, with Miss
Helen Chitt, formerly of Oneonta,
president of the organization, presid-
ing. Welcome to Oneonta was ex-
tended in cordial and hearty words by
Miss Elizabeth Brownell of the First
Presbyterian church of this city, to
the Universalist church of Oneonta by
John Hotelling of the local union.
Greetings from the National union
were extended to the convention in
well phrased remarks by Rev. Stanley
Manning, director of young people's
work. Miss Ulrich, president of the
state organization, responded happily
to the greetings of the preceding
speakers, closing the banquet.

Today's Program

The convention continues through-
out the day, closing with a session
Sunday morning at 10 o'clock sharp
at which Rev. L. C. Nichols of Utica,
formerly pastor of Chapin church, will
preach to be followed by a consecra-
tion service conducted by Rev. Stanley
Manning and the holy communion.
The morning session today will open
at 9 o'clock and will be devoted quite
largely to business matters, including
reports of officers. At 11 o'clock Rev.
Stanley Manning will deliver an ad-
dress. In the afternoon, commencing
at 1:30, the business session will be
continued with an address at 2 p. m.
Reminiscences of the National con-
vention by William Crawford of
Brooklyn and election of officers to
follow. This evening at 8 o'clock
there will be a social session held at
the Woman's club with dancing and
other entertainment.

Everybody's Business Nobody's Business

I ain't educated any too much, but
I been thru the school uv hard knocks,
which makes a feller think, and have

order to get money to build more
houses in Oneonta. Ben a I ain't of
much sect, except that I ain't no
talk about this different situation,
but as I happen to know how the city
of Schenectady is doin' the trick, I
kinder think that I oughter let my
tongue wabble. They hev a Bldg. in

fed for nigh on to 33 years, in gettin'
homes same as our safe un sane
Association here in Oneonta, and
several thousand extra little fellers
there are now chuckin' away around
35 cents daily, which a feller can't
get 60.00 per month in the taking of in-
vestment shares and the high brow
are takin' an occasional \$25,000.00
in its safe income and savin' shares,
which is doin' the trick to beat the
hand and is so dead easy that its
acterly surprisin'. I'm anxious to have
Oneonta people know about it; get

PROPOSE PARK BOND ISSUE

CHAMBER OF COMMERCE DI-
RECTORS PLAN RECREATION-
AL FACILITIES.

City Authorities May Be Asked to Act
—Project to Be Considered at Fri-
day Dinner of Membership—Other
Matters Discussed at Meeting Yes-
terday.

A proposal to urge the holding of
a special bond issue election by the
city to provide means for recreation-
al facilities in Wilber and Neahwa
parks, was broached at a meeting
yesterday afternoon of the board of
directors of Oneonta Chamber of
Commerce.

Discussion of this proposal was
designated as the chief topic for the
third quarterly meeting of the Cham-
ber's membership, which will prob-
ably be held next Friday evening,
December 2. The meeting was sched-
uled for the second Friday in the
month, but was postponed since this
date fell on a holiday day and the
meeting of the State Dairyman's
association was held the following
week. President Owen C. Becker an-
nounced last night that the meeting
would probably begin with a dinner,
with the business session following,
and that more detailed announce-
ments would be made Monday.

Co-ordination of activities for rec-
reational development of Oneonta's
parks by a committee of which F. H.
Marx is chairman, and the formu-
lating of estimates of expenses, the
most needed facilities would entail,
brought forward the proposition of
providing for these improvements by
means of a bond issue. Since spring
the Chamber of Commerce and var-
ious committees of the organization
have been busily engaged in studying
the recreational problem. Every ef-
fort to secure certain needed facili-
ties for recreation in the park was
blocked by the fact that the city and
the park commission has not had suf-
ficient funds this year to appropri-
ate for any such purposes.

Realizing the importance of the is-
sue just at this time, and the desire
of the Common Council to discern
public opinion in the matter before
proceeding with a call for a bond is-
sue election, the directors of the
Chamber of Commerce decided yes-
terday to refer the proposal to the
membership, so that the views of the
entire organization may be laid be-
fore the city fathers before any ac-
tion is taken.

A full discussion of what improve-
ments the Recreational committee
recommends and the amounts which
will be required to carry out the var-
ious projects, will be had at the
membership meeting. Various de-
tails of the committee's plans are not
quite fully completed, and several
conferences with city officials and
others will be held the coming week
before the report is given at the
meeting next Friday night.

Conferences with officials of sev-
eral of the public utility corporations
of the city were likewise ordered by
the Chamber's directors at its meet-
ing yesterday. These will probably
be held within the next several days
so that a report may be rendered at
the quarterly meeting.

Recent developments in building
throughout the city which have
shown the need of more compre-
hensive building code, caused the
Chamber directors to authorize ap-
pointment of a committee to formu-
late plans for discussing city zoning
and city planning and its various
phases. A paper on this subject will
be given before the Fortnightly club
on January 11 by Secretary Everett
Hicks.

"I wouldn't give you ten dollars

"Four dollars or nothing?"
"Are you sure that's all it's worth?"
asked Weary Willie.

"Four dollars," repeated Jakey.
"Well, here's your four dollars,"
said Weary Willie. "This overcoat

much it was really worth."

CLEAN-UP SQUAD COMING

Will Visit City Monday and Tuesday
to Assist Ex-Service Persons in Fil-
ling Claims Which They Have
Against Government—Seven Ex-
perts on the Squad.

The attention of ex-service men
and women in Otsego county is called
to the fact that the Clean-Up squad
of the U. S. Veterans' bureau will be
at the Oneonta postoffice on Novem-
ber 28 and 29, Monday and Tuesday
of next week. At that time such per-
sons will have an opportunity to se-
cure quick action on any claims they
may have against the government.

With the squad will be three doc-
tors, a vocational training expert, a
compensation and insurance expert,
an American Legion representative,
and a field representative of the Amer-
ican Red Cross. Compensation, insur-
ance, vocational training, allot-
ments, back-pay and medical treat-
ment will be among the claims which
the squad will file. The Home Serv-
ice division of the local chapter of
the Red Cross is now engaged in help-
ing to prepare the necessary state-
ments and affidavits in order that
when the squad arrives there will be
a minimum of delay. All ex-service
persons with claims are urged to con-
sult Miss Deulah Holdredge, execu-
tive secretary of the home service di-
vision with offices at the Community
house, at once. Every one should
bring with him his original discharge,
his award of compensation, and any
other papers relating to any other
claim he may have previously made.

These squads have been organized
all over the country by the Veterans'
bureau, the new department which
consolidates the former Bureau of
War Risk Insurance, the Board of Vo-
cational Education and the Public
Health Service. Besides the thousands
of ex-service men suffering from dis-
abilities incurred in service who are
unaware of the opportunities for re-
habilitation which are extended to
them, this campaign will take care of
those whose disabilities are only now
beginning to manifest themselves. It
is to be a sweeping effort to "clean-
up" all claims of former service per-
sons now pending.

This will be the only visit of the
squad to Otsego county and all with
claims against the government are
urged to consult it.

Among other matters brought to
the attention of the board was
the invitation from the Kingston
Chamber of Commerce to participate
in the formal opening of the state
highway bridge over Houdout creek
next Tuesday, with a celebration in
which Governor Miller, ex-Governor
Smith and other prominent men will
participate to mark the closing of the
last gap in the state highway system
on the west side of the Hudson river.
Reservations for the luncheon at this
celebration may be made by Oneonta
citizens planning to attend, through

MARRIED THANKSGIVING DAY

Miss Katherine Eldred becomes bride
 of Lucius S. Westcott.

There was a quiet wedding at the First Methodist Episcopal parsonage, Thursday morning at 10 o'clock, when Miss Katherine, daughter of Mr. and Mrs. John Eldred of 14 Newhwa place, became the bride of Lucius S. Westcott, son of Mr. and Mrs. L. M. Westcott of 5410 1/2 street. The ceremony was performed by Rev. Dr. E. M. Johns in the presence of only immediate relatives. Miss Carrie Richards, a cousin of the groom, was bridesmaid, and Fred Eldred, brother of the bride was best man. Immediately following the ceremony, the happy couple departed on a short honeymoon trip to Binghamton, Scranton and other cities, after which they will for a time reside at the home of the groom's parents. Both groom and bride are life-long residents of Oneonta. The latter has great personal charm of manner and disposition which had won her many friends. The groom is an industrialist and respected young man who gave two years of honorable service with the United States navy, after which he returned home and secured a good position with the D. & H. company with which he has ever since been employed. Mr. and Mrs. Westcott will have congratulations and best wishes of all who know them.

To Speak at Barren Banquet

The eloquent Dr. Scott, who has spoken in Oneonta on several occasions, is announced as the principal speaker at the banquet of the Barren class of the Main Street Baptist church to be held at the church parlors on Tuesday evening next. His presence will no doubt assure a record attendance at the banquet.

Mrs. John B. Cook.

Sarah C. Greene, wife of John B. Cook, died at the family home, 6 High street, Friday morning, November 25th, at 5:40 o'clock, following a shock she sustained on Saturday last and from which she failed steadily until the end. The funeral services will be held Monday, November 28, at 2:30 o'clock from the house. Rev. B. M. Johns of the First Methodist church will officiate and interment will be made in the Cook cemetery at West Oneonta.

The deceased was born at Hartwick, February 27, 1848, the daughter of the late Lyman Greene and most of her life has been passed in the Oneonta valley. She has been a resident of this city for the past five years. During her residence at Hartwick she was a member of the Methodist church of that village.

Surviving her are the husband, two sons, Wallace H. Cook, of 6 High street, Curtis L. Cook of Laurens, three daughters, Mrs. S. T. Smith of Blue Island, Ill., Mrs. Anna M. Nichols of 6 High street, Mrs. Claude Marble of Oneonta township; one sister, Mrs. Augusta Conklin of Janesville, Wisconsin, and one brother, Herman Greene, of Endicott.

Eugene H. Weatherly.

West Oneonta, Nov. 25.—Eugene H. Weatherly, a life-long resident of the Oneonta valley, died at half past twelve o'clock on Thursday afternoon at his home in this village, of illness, which was of pneumonia. Was of two weeks' duration. The funeral will be held at his late home at 2 p. m. on Sunday. Rev. Dr. M. C. Miner of the Free Baptist church will officiate and interment will be in the Plains cemetery.

The deceased was born in Laurens township September 3, 1850, and was a son of Francis and Mary (Thayer) Weatherly. He was married September 13, 1905, to Miss Dora Terpening. Their earlier home was on a farm in Laurens, but 14 years ago they moved to West Oneonta. Since that time he had been a machinist with the D. & H. company in the Oneonta shops, and he was a member of the Machinists' union. He was a respected citizen, a friendly, genial, companionable man, and in his village, friends in the place and among his associates and fellow workmen in the city. The surviving members of the family are his wife and parents, the latter residing at West End, Oneonta, and two brothers, George of Morris and Hiram of West Oneonta.

There was a large attendance of neighbors and friends, including large delegations from the Woman's Relief corps and the Mooseheart legion; and the many beautiful tributes, including those from the W. R. C., the Mooseheart legion, the Quality Silk mill and the Loyal Helpers Sunday school class of this city, and the Chubb company of Troy, besides those from neighbors and friends, bespoke the general regard. The service was conducted by Rev. Dr. Charles S. Pendleton, who read appropriate scripture selections, followed with an address full of consolation and of Christian assurance and closed with prayer.

The burial was in the family plot in the Glenwood cemetery, the bereaved being A. J. Bookbinder, W. W. Rowe, John Mulkin, William Hotelling, R. R. Mackley and Oliver Sissum.

There were many friends in attendance and there were many beautiful flowers, the tribute of her friends. Rev. Dr. Charles S. Pendleton, pastor of the Main Street Baptist church, officiated, taking in some degree his theme from a fine painting, "Rock of Ages," which hung above the casket, and closing with a touching tribute to mothers.

The bearers were Vernon and Miles Graves, Albert V. Van and Leander Houck, nephews of the deceased, and interment was in the family plot in the Plains cemetery.

Among those in attendance from out of the city were Mr. and Mrs. Frank Leet of Binghamton, Mr. and George Jones and daughter, Eva, of Cooperstown, Henry Schermerhorn of Unadilla and Mr. Kimball of Merida.

ODD BELIEF IN JIMSON WEED

Cherokee Indians Imagine Child Partaking of It Will Have Its Memory Quickened.

The Cherokees have an interesting superstition about the Jimson weed, which they believe to be endowed with the occult power of improving the memory and inducing stability of character, according to the House Beautiful.

When a child is born, Jimson weed is beaten up and a portion put into a bowl of water taken from a fall or cataract where the stream would make a constant noise. This is given to the child to drink on four successive days, with the intention of making him quick to learn and giving him a retentive memory. The noise of the cataract is believed to be the voice of the Yunevi Gunahoda, the river god, teaching lessons which the child may understand, while the stream itself is revered for its power to seize and hold anything cast upon its surface.

The name Jimson weed, a contraction of Jamestown weed, was bestowed upon the plant in Colonial times because certain soldiers, making its acquaintance for the first time at Jamestown, Va., ate sprouts of it and consequently became delirious. The seed pods have a narcotic effect and, if eaten in quantities, are very poisonous, causing a fatal stupor.

A Dangerous Flirtation

By MARVIN BROWN.

Copyright, 1921, Western Newspaper Union.

Lily Price took down her hair and smiled at her reflection in the mirror of her room. Then she smiled at the remembrance of the evening. Mr. Ferris was evidently in love with her, and, while she could not honorably have encouraged him, she could not avoid a certain feeling of elation.

Her father, a hard-working city clerk, had sent her to this expensive mountain hotel in order to accelerate her recovery from an illness brought on by long confinement in a stuffy office. Lily was engaged to John Shaw, the curate of her home town.

She had spent the whole evening with Ferris, and had half promised to go driving with him on the morrow.

She went to bed happy, and arose next morning with the same sense of elation. It was said that Ferris was rich.

She frowned when she saw a letter from John beside her plate. She read it with a contraction of her pretty brows. John breathed devotion in every syllable, and he was coming to Lakeside lodge that very day, to spend the week-end with her. In that case there would be no drive with Philip Ferris.

"Bad news, Miss Price?" asked Ferris, a few minutes later, coming up to her as she sat on the veranda. "I saw you looking unhappy over a letter and I hoped it was nothing unpleasant."

"Oh, no," said Lily with a sigh, putting away the letter in her bag.

"Then how about our drive?" volunteered Ferris. "Have you ever been round Blue mountain?"

"I'm afraid I can't go, Mr. Ferris," said Lily. "I'm expecting a friend—I mean my—"

"She broke off in confusion. Ferris smiled understandingly. He had no desire of marrying her; it was only a week-end flirtation.

"It will be a tragedy to me, if you won't come," he said, pressing her hand ever so gently. "You have made me mortally jealous of your friend—"

"Oh, he's so slow," Lily burst out petulantly. She sprang to her feet. "I'll come," she said, and ran into the house.

John Shaw was due to arrive at four. He would arrive to discover that Lily was away. Well, she did not care. It should be a lesson to him.

At three o'clock promptly she entered the carriage. The drive was splendid. As they ascended the mountain road Ferris leaned toward her.

"I'm mortally jealous of that sweetheart of yours," he said. "Who is he?"

"He's a clergyman," answered Lily. Ferris burst into a roar of laughter. "A clergyman! Ho, ho!" he roared. "Then there wouldn't be any harm in this!"

He drew her to him and kissed her. It was not the first time that the girl had been kissed, even excepting John, but there was something in the young man's demeanor that scared her.

"Please don't," she begged, as he showed every sign of repeating the act. "That isn't honorable."

"Why isn't it honorable?" asked Ferris, letting the horse gallop on with loose reins.

"Why isn't it honorable?" demanded Ferris again, and suddenly caught her in his arms. "A clergyman isn't a man; he's a sort of mongrel."

Lily screamed—she was really afraid of her companion now. Ferris had released the reins entirely, and the horse, startled by the sudden sound, kicked up its heels and darted wildly down the mountain road.

"Hold him!" cried the girl, and then, to her amazement, she saw that Ferris was clinging, panic-stricken, to the side of the carriage. His face was white as chalk and his hands too nerveless to grasp the reins.

The animal was pulled back upon its haunches. John Shaw stood in the way. He was clinging with one strong hand to the horse's bridle, while with the other he patted the frightened creature's neck. When at last it stood, quivering with fright, Shaw turned to Lily.

"I didn't know it was you," he said, and his face was as white as Ferris'. "If I had known I might have lost my presence of mind. I was walking up from the station and I heard somebody scream."

He lifted her from her seat and set her down.

Ferris descended from the vehicle and came toward her, wearing a foolish smile.

"That was a near scrape, wasn't it?" he stammered.

"I won't detain you now," said John, rather coldly, lifting his hat. "Perhaps, though, your friend would like me to take the carriage back to the stables."

"No," said Lily, clinging to him. "Take me back, John. I have been a little fool, and I am very much ashamed. I want to tell you, and ask you to forgive me, John."

Earliest New England Dwellings.

It is generally thought that the first kind of dwelling built by the early settlers in New England were log cabins, but as a matter of fact, these pioneers often felt obliged to wait until after they had reaped their first harvests before they took the time to erect anything so durable and elaborate as a weather-tight cabin. Like the primitive people of southern Europe, like the Indians of Mexico they used what came their way. And often they merely dug in, finding a shelter much as the armies in France did during the war.

To Clean Oil Paintings.

A simple way to clean oil paintings, and one that will not injure the colors beneath the dirt, is to cut a raw potato in half and rub it quickly over the painted surface. Then polish with a silk handkerchief to remove dust or dirt.

INVENTS "STEAM" AIRSHIP

British Naval Officer Produces Engine He Says Will Reach High Altitudes.

London.—Invention of a system of steam propulsion for airships is claimed by Capt. W. P. Durrant, who was a British naval officer during the war and up to a year ago staff captain in the chief mechanical and electrical engineers' department of the royal air force.

It is maintained that the new system will function at altitudes hitherto unattainable with the ordinary type of internal combustion engine.

The invention is said to do away completely with the ordinary boiler, the steam being generated by means of internal-combustion power or heat energy. The superheated steam heat energy is supplied to special steam motors which are reversible and can be controlled from a central control station. Only heavy oil is used as fuel and it is claimed that the driving machinery can be safely placed inside the frame of the airship instead of in separate gondolas outside, thus bringing about a great reduction in air resistance and consequently reducing the power required for propulsion.

Shoestring Remedy for Colds.

The best time you feel that you are catching a cold, stoop over and tie your shoe. While you are at it you might as well tie both shoes. Loosen the strings and make a good job of the tying. The principle of the shoestring remedy is that in stooping over the blood is brought to the head and the circulation is otherwise favorably affected. Where there is perfect blood circulation there is immunity from the taking of cold.—Gateway Magazine.

Colored Minstrels Coming.

For singing and dancing none can excel the colored race, and it seems as if the cream of the colored talent has been brought into the Herberts Greater Minstrels, at least this company is establishing itself rapidly as a top tier attraction and is not thought of as a "nigger show"—it being in the same class and character as any white minstrels unless that it be that it is superior, and the white people appreciating the efforts of these deserving people are very liberal in their patronage.

A DAY OF THANKSGIVING

Church Services in Morning and Substantial Turkey Dinners at a Later Hour Marks City's Holiday Program.

A day of family reunions and satisfying dinners was Thanksgiving in Oneonta. Many passed the day with friends and relatives in other communities but more stayed in the city to surround tables piled high with turkey and other tempting viands. The "White Thanksgiving" prophesied by many during the preceding evening failed to materialize. The day was wet and not pleasant out of doors but that did not lessen the enjoyment of family groups to whom the day means the home coming of loved ones.

The union service at the United Presbyterian church in the morning was fairly well attended by those to whom the spirit of Thanksgiving is inspired by the name. The various pastors of the city participated in the service. Rev. P. M. Luther delivered the invocation and Rev. Dr. C. S. Pendleton the scripture reading. Prayers were made by Rev. Dr. J. C. Russell and Rev. Dr. E. J. Farley and Rev. Dr. B. M. Johns gave the benediction. The sermon was preached by Rev. Frank M. Caughey. Mr. Caughey stressed the many blessings which have been bestowed upon individuals and nations during the past year, having particular emphasis upon the Disarmament Conference now in progress. The conference is a long step toward toward international unity and peace and for its inception and satisfactory continuance praise and thanksgiving is due from all the peoples of the world. Mr. Caughey's remarks were in keeping with the spirit of the day and reminded everyone present forcibly of the many blessings for which they should be grateful. The music was in charge of Jerry Wilson, who arranged the excellent program directed the choir and rendered a solo himself.

Well attended services were also held at St. James' Protestant Episcopal church and at St. Mary's Roman Catholic church. More than 200 poor children of the city were made happy by the Salvation Army at a turkey dinner at the army hall at 1 o'clock Thursday. "All the trimmings" went with the turkey and the little ones enjoyed the meal to the utmost. Captain and Mrs. Harrison were responsible for the food and to them much credit is due.

Completes Thirty Years' Service.

Samuel Mahaffy of this city has completed 30 years of continuous service as a railway postal clerk on the Ulster and Delaware railroad, his trip being from Oneonta to Kingston and return. Receiving his appointment from Postmaster General John W. Wainwright on November 23, 1891, he started work on the U. & D., which then ran only from Kingston to Bloomsburg, and has been a familiar figure in the mail car on that road ever since.

SHEEP GROWERS MEET

County Association Holds About the Feeding Arrangement and Urges That Wool on Hand Be Marketed Before Another Fall.

For the 65,000 pounds of wool of the 1,000,000 pounds in the state pool from the clips of 1920 and 1921, which have been made up for the producers into bed blankets, motor robes, horse blankets and men's suitings, the producers will net between 30 and 35 cents a pound, Mr. Wood, director of the State Federation of Wool Growers at Syracuse, told the members of the Otsego County Sheep Growers' association at the annual meeting at the Chamber of Commerce rooms in Cooperstown yesterday. Mr. Wood spoke at the afternoon session and outlined the activities of the federation and the progress made. He stated that the market is improving, although the average price that the wool would bring in the market at the present time is about 25 cents.

After his address an opportunity was given members to question him relative to the pool and the prospects for the future. Following this, Howard Cunningham of Middlefield Center, secretary and treasurer of the association, was elected as delegate to the annual meeting of the federation, to be held in Syracuse Jan. 6 and 7. He was instructed to use his best judgment in voting upon all matters. A resolution was passed expressing the sentiment of the growers of Otsego county as favoring making some disposition of the wool on hand before another fall.

At the business session in the morning, Fred A. Murdock of Oneonta was elected a director of the county association to succeed Lowell S. Huntington of Otsego and John Curry of Hartwick was elected to succeed himself, only two directors' terms expiring at this meeting. At a later meeting of the directors John Curry was re-elected president and Howard Cunningham of Middlefield re-elected secretary-treasurer.

L. Q. Smith, director of Junior Extension work in the county, also spoke at the afternoon session outlining what that department is doing to encourage interest in sheep growing among the juniors. The association resolved to continue the support accorded this work and will defray the expenses of the boy or girl in the county making the best record with sheep at the State fair at Syracuse again next fall.

FOCH VISITS DODGE FACTORY

Famous Frenchman Devotes Part of His Time to Detroit to Inspection.

Marshal Foch, on the occasion of his visit to Detroit, Mich., early in the present month, made a visit and a tour of inspection to the big automobile factory of Dodge Brothers, which was elaborately decorated for the occasion and where every honor was paid to him.

Relative to the visit an official publication of the concern gives an elaborate story accompanied by many excellent views, and in the story says: "The selection of Dodge Brothers' factory from forty or more Detroit automobile factories, as the plant to be inspected by the French party, was not a matter of casual chance. Dodge Brothers' war work had often attracted attention at French headquarters, and before leaving France the Marshal had expressed a desire to see the institution which had supplied nearly 20,000 cars for the armistice and which had built a \$10,000,000 ordnance plant and turned a large organization to the manufacture of French recoil mechanisms in such a remarkably short time."

It was apparent at every stage of the reception and inspection that Marshal Foch was intensely pleased and interested. Presented with a specially bound booklet relating the story of Dodge Brothers' ordnance plant, copies of which were also provided for the other members of his party, the Marshal expressed his own gratitude and that of France for the great help which Dodge Brothers gave the Allies during the war. He was amazed at the vastness of the factory, he said, and was delighted that he took the time to inspect it, even though his stay in Detroit was limited to a few hours.
